Ticket comments
The phishing email contained a malicious attachment linked to the FlagPro backdoor malware. VirusTotal analysis confirmed the file hash (54e6ea47eb04634d3e87fd7787e2136ccfbcc80ade34f246a12cf93bab527f6b) was detected by 54/71 vendors and exhibited anti-debugging and lateral movement behaviors. Escalated for further investigation and containment.

Additional information
